A WESTERN SMASH-UP.

A Westbound Freight has a bad Spill-Stock on the Track—Moose Jaw Passengers.

Calgary, Nov. 23.—On Friday last a special freight train in charge of Conductor Birdsell and Bringer Glassford, was partially wrecked at Midford. At about 3 o'clock in the afternoon, the first intimation given of the approach of a train was the whistle blowing to frighten cattle off the track, and on looking out the train was seen running down on a small bunch of cattle crossing the line. The last cow was caught by the engine; there being a small plough on instead of the usual cow-catcher, the result was that after a few revolutions the engine left the track and narrowly escaped ploughing head foremost into the Bow River. It however, by good luck crossed the bridge, but immediately on arriving at the other side those who were on the engine jumped off—only just in time, for a second after the engine and two cars went down the bank, another car of mixed goods being dumped on the opposite side. The whole affair happened so quickly and quietly, the extraordinary fact being that nobody was killed, only two men slightly injured. Naturally things got knocked about, and on going to see the wreck several pairs of overalls were found stuck in the tender of the engine, presenting a most comical appearance. A guard was at once placed over the car of mixed goods, which was lying in a most tempting position with one end torn out. Those who were on the train cannot be too much congratulated on the fact of getting off so safely, for had the train run into the river not a person could have been saved.

Engineer Geo. Glassford received a bruise on the knee and Mr. Stocks, Supt. of Bridges, had a very narrow escape. The tender swung across the track and a box car lay partly on top. Two other cars rolled down the embankment. The fireman got on a box car that rolled over, and his escape was miraculous. A wrecking car arrived from Crowsnest and an engine from Calgary, soon made the line clear for the passenger train.

Among the passengers were Messrs. Hugo Burnaby and W. R. Barlow, of Moose Jaw.

AN EARTHQUAKE SHOCK.

MONTRAL IS SHAKEN BY EARTHQUAKE—SETTING OF THE LAURENTIAN FORMATION.

Montreal, Nov. 27.—The earth was shaken with an earthquake shock today which caused large buildings to rock. Many of the inhabitants thought the end of the world had come. The shock was followed by subterranean rumblings.

Sir William Dawson, the famous geologist, says that the earthquake can doubt the result of the settling or giving way in the rocks along the junction of the Laurentian and Silurian formations. From what he can judge the earthquake came from a great depth and nearly vertically. The shock was very pronounced and was followed by a rumbling noise, which indicates the depth at which the settlement took place.

HOW EDITORS ARE "DONE."

The editor of the Revelstoke News is a bird. The following is from his paper and every editor in the country will hold up his right hand and say Amen and amen!

"Now to turn to some of our friends. They mean well, no doubt. They err only through want of thought. They do not think of asking themselves how the editor's income is obtained. They

send him notices of their entertainments, and socials, and lectures, and tea parties, and ask him to give them a good long article in the news column (of course) and expect him to give a lengthy report of the affair in the next issue. And if the report is condensed into a small paragraph some of our friends kick. But what caps the climax is the fact that, not content with having their notices and reports inserted free, our friends send round two or three handsome young ladies who will not leave without selling the editor a ticket (who could assist them?) often being his last half dollar, too. Some of our friends have had the letting of contracts for church and other buildings recently and have had them advertised it. By writing the ad. on a half sheet of note paper and tacking it on to the telegraph post. If any of our contemporaries have to speak against such rigid economy as that we should like to hear from them. We know these things are done through want of thought, and we hope that our friends will be a little more considerate in the future."

FOR BETTER OR WORSE.

Richard Wilson, of Caron, and Miss Carrie Wilson, of Moose Jaw flight their Trot.

On Wednesday evening last the residence of Mrs. Martin on Fairford St. presented a very animated appearance and many were the surmises as to the cause. However the sight of Rev. Mr. Mack making his way in that direction threw new light on the subject. The reverend gentleman's professional services were being given for the joining together in matrimony of Richard Wilson, an enterprising farmer of Caron, and Miss Carrie Wilson, of Moose Jaw.

The groom Mr. Wilson is one of the pioneer settlers of Moose Jaw District, and one of our most prosperous farmers. He came to this country from the county of Wellington, Ontario in 1882, and settled at Caron, in Township, 17 Range 28.

After the wedding ceremony the guests sat down to a recherche repast. Dancing then commenced and the festivities and merry making were kept up until an early hour on Thursday morning. The bride was the recipient of many costly and beautiful presents, of which a full list will appear in next week's paper.

WITH ANOTHER MAN'S WIFE.

A DARKFACED ELOPEMENT—AN UNPRE-POSSESSING PARADOUR.

Toronto, Nov. 28.—Two years ago McLean, a mischievous unprepossessing man eloped with the wife of W. H. Arnold from the eastern counties, taking a quantity of the wronged man's goods. They were traced to Regina, where McLean was arrested for the larceny of the goods. He was brought back, the woman accompanying him. McLean was tried at Brockville and sentenced to a long term in the penitentiary last July. Before Arnold died, he wrote to McLean, forgiving him and advising him to get up a petition for his release. Lawyer Hutchison, who defended McLean, interviewed Thompson about the release, and yesterday McLean was released.

The exhibit of the Canadian Pacific railway's mahogany train, consisting of an engine, two first-class day coaches, dining and sleeping cars, was yesterday removed from the transportation building. The engine was steamed up and attached to the cars. The train left over the Wahash route and is destined for Montreal.—Chicago Herald.

ADVERTISING is an ancient and honorable institution and was practised longer ago than a great many people imagine. Get your Bible, turn to Numbers, xiv. 14, and you will see that Balaam believed in advertising and said to Balaam: "Behold I present unto my people; come therefore and I will advertise." Turn again to Ruth iv. 4, and you will find that Boaz, in connection with a certain real estate transaction in which he was interested, expressed himself as a judicious advertiser.—Standard.

On Tuesday evening Prof. J. K. Ross gave a lime-light exhibition in the Presbyterian Church. He showed views of various places of interest in Scotland and England all of which were exceedingly good. He finished up with a number of humorous selections which were well received. On Wednesday evening Prof. Ross gave a number of Scotch readings which provoked roars of laughter. Owing to other attractions and the cold weather the meetings were rather thinly attended. The people of Moose Jaw missed a great treat. Prof. Ross's readings were marked by brilliant expression and delivery.

FRIDAY, DEC. 1, 1893.

MAILING CHRISTMAS PACKAGES.

There are a number of regulations governing the sending of parcels by mail, but these are reasonable, writes Mrs. Hamilton Nott in a timely article, entitled "Sending Packages by Mail" in the December Ladies' Home Journal. The following apply to all places within the United States, Mexico and Canada, these and a few other restrictions which will be touched upon later—governing the sending of packages to other countries: All packages must be wrapped so that an examination is possible by the postal authorities, and it is well to facilitate this by wrapping with this end in view, although this does not mean that they must be left open. For this season, unless a package is sent by registered mail at letter rates, it must not be sealed. Use only a good quality of wrapping paper, as the cheaper varieties are apt to tear when the package is opened for examination. Tie the twine so that the knots may be opened readily, and leave sufficient extra length for fastening. Liquids are allowed to be sent only when the cases in which they are packed have been submitted for examination and approval to the post office authorities. Explosive and inflammable materials are in the nature of things forbidden, as is the transportation in the mails of dead or live animals, fruits or vegetables. Candies and cakes should be secured in tin boxes. Pocket knives are permitted when they are securely bound with wire to prevent any possibility of the blades opening. China and glass are transported when securely packed. Jewelry or other articles of value should be packed in cotton in a box, and registered for greater safety.

In addressing write in ink clearly,

For Mr. John Brown,
Brownsville, Union County,
Indiana.

or whatever the address is, spelling both the city and state—using no abbreviations—in a large hand writing upon the centre of the upper side or lid of the package. In either the upper or lower left hand corner, place in smaller writing,

From John Jones,
Manchester,
Maryland.

Have the package weighed by some responsible man, place the exact amount of postage needed upon the parcel, and in nine hundred and ninety-nine cases out of a possible thousand your package will reach its destination safely and promptly. In addressing do not use an address tag as it is apt to get torn or lost.

Itch on human and horses and all animals, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by W. W. McE.

THE NINETEENTH CENTURY.

We are nearing the end of the nineteenth century. With another generation its praises will begin to be chanted, as those of the 16th, 17th and 18th have been chanted. Those who have lived in and justified with its great men see but dimly the purport of its great movements. We are even tempted sometimes to listen to the wail of those disappointed aspirants, who, because they have failed themselves, failed through false pretences, probably for an age of sublime thinkers and workers also, through the superabundance of its intellectuality, an age of shame—try to hide its shortcomings by universal detraction. It is so easy to go into ecstasies over a past about whose realities we may know very little more than what may be conjectured by the names of a few "men of the time" and it is so easy to speak slightly of men and women because we have seen them in the flesh or have read the interviewer's account of them. Long ago, the world's leaders kept themselves apart, so that mystery added to their prestige. The danger in our day is that they may be vulgarized by association with the rabble—rich as well as poor. But this degradation of dignities, the logical sequel of social democracy, is only a transition stage. The test will purge the gold from the dross, though the process may take time. In some cases it has taken so long that one almost doubts the judgment both of contemporaries and posterity. The compensation missed in one age may come, it is true, in the next—compensation to a shade for the neglect which doomed a sensitive soul to disappointment, to want, perhaps to death. It is expedient, however, not once, but always, that some one should die for the people, die and pass into blank forgetfulness. The history of invention is full of sacrifice, and there is not a boon of comfort we enjoy that has not been won by tears and blood for some, while bringing wealth and glory to others. But that is only one phase of the great struggle of this world's developments. The moral of it all is that we should keep awake to what is most fruitful and assuring in our own time, to the greatness of the world in which our lot is cast, hoping for still grander triumphs instead of making invidious comparisons with a past in which we would not willingly live an hour.

NOTES AND COMMENTS.

H. C. Wahlberg, a Scotch merchant, and formerly of Winnipeg, a correspondent for the Tacoma Tribune the leading Norwegian-Danish paper of the Pacific coast, is writing four series of articles about Canada to that paper, as well as Mr. Ohlson's paper the Scandinavian Canadian of Winnipeg. The first of the series will be about Victoria, Vancouver and British Columbia; the second, a trip over the mountains; the third, Winnipeg, Manitoba and the North-West; and the fourth, Eastern Canada. Mr. Wahlberg, who is a very able writer, will call special attention to Manitoba and the North-West as a field for Scandinavian immigration.

Mr. Wahlberg is now on a visit to Montreal, Ottawa, New York and other centres.

Commenting upon a recent article on the somewhat abnormal community of action between Russia, France and the United States, the Halifax Herald says: "No doubt the three countries named hate Great Britain, and would like to hurt her. That is the controlling force in all three of that kind. But it by no means follows that they love each other solely for that reason. The fact is that Russia and France both hate (and fear) Germany quite as much as they hate Great Britain. While between France and the United States there is no love and is not likely to be. But all three powers are afflicted with the same mania—the idea that the world is very much impressed with them. And since they can get nobody else to agree with them, they have to take it out in flattery from each other. We doubt if anyone of the three loves any other to the extent of a big loan, much less of a respectable army."

The Review of Reviews for the month of November contains one or two articles of peculiar interest to Canada. "Possibilities of the Great North-West," by S. A. Thompson, is an at-

weekly and daily, has, during the year, adopted what it declares to be the model form, with neat small convenient pages, being enabled, by the possession of one of the best printing presses ever built by the Hoes of New York, to vary the number of pages at will. The paper enters the press at two places, on rolls broad or narrow as required, and the newspapers come out at lightning speed folded, pasted and cut. Besides the improvement in form there is a remarkable improvement in typography, the type being set by the wonderful Linotype machine which attains the speed of five men, and casts a new type face every time. The proprietors invite visitors to Montreal to see these machines. The picture element has so greatly developed in the Witness that it may now be fairly called an illustrated paper. The witness has moved to the busiest corner in Montreal the junction of Bleury and St. Peter streets with Craig street, and has a spacious building there which is in some respects as fine a newspaper office as there is anywhere to be seen. The price of the Daily Witness is three dollars, and of the Weekly Witness one dollar, while the little pioneer paper, the Messenger, costs only thirty cents.

E. A. BAKER & CO.

In 1862 England, consumed 80 million pounds of Tea all from China.

In 1872 she used 111 million pounds from China, and 17 million from India.

In 1882 114 million from China, 31 million from India and a half a million from Ceylon.

In 1892 only 34 million came from China, 110 million from India and 63 from Ceylon.

To-day the People of Moose Jaw use only Ceylon Teas

The Moose Jaw Times.

FRIDAY, DEC. 1, 1893.—No. 24

LOCAL AND GENERAL NEWS.

THE skating on the river has been stopped by the snow.

MAIL CLERK J. G. MacDonald held an "at home" yesterday.

TEAM dispatcher Pardon returned from Winnipeg on Saturday.

MR. E. BOWDEN visited Regina on Wednesday and Thursday,

REV. MR. BURG occupied the pulpit of the Presbyterian Church on Sunday last.

MRS. C. LEARY left on Sunday morning on a visit to her uncle Thos. Buckley of Toronto.

MR. EDWIN COOPER, representing the British Empire Insurance Co. was in town on Tuesday.

MR. TIMOTHY SMITH who has been under medical treatment for some time is now convalescent.

MRS. TENA REIN, who has been visiting her sister, Mrs. J. Grierson left for Scotland on Sunday.

E. H. FLEMING arrived in town on Monday to take W. H. McCracken's run from Moose Jaw to Calgary.

THE scholars of the Presbyterian Sunday School are practising for their annual Christmas entertainment.

W. A. FORSTER severed his connection with the TIMES office on Saturday. He left on Sunday for Listowel, Ont.

BESIDES the usual practices of Sunday School children a number of townpeople are practising Christmas carols.

ALL the Souris coal mines are now represented by Moose Jaw agents. The coal is meeting with general satisfaction.

THE residence of the late Lewis Abbey on High St. was sold by auction on Monday last. H. Ferguson was the purchaser.

Supt. WHITE, R. Kerr, Civil Engineer Stewart and Dr. Stewart have been in Lethbridge arranging the time card of the Galt road.

A MEETING of the M. J. J. P. was held on Wednesday night. The meeting was frequently disturbed by hard coughing and cold feet.

C. SOPER arrived on Wednesday from Greta to take the position of car inspector. Mr. Soper was a son of his wife and family.

THE Aberdeen House was opened with a ball on Tuesday evening. Owing to the excessive cold the attendance was small but the guests thoroughly enjoyed themselves.

BANANAS are out of season.

Local merchants are busy preparing consignments of Christmas goods.

Economist Wright is recovering from the severe scalding received last week.

OWING to press of business the TIMES staff had to be temporarily increased this week.

F. A. MARTIN left on Tuesday night on a three month's visit to friends in England.

Fish on land and horses and all animals cured in 30 minutes by Woolfield's Sanitary Lotion. This never fails. Sold by W. W. Bole.

MINE host of the Ottawa Hotel is putting in a handsome eight-piece piano for the accommodation of his guests.

W. D. PALMER paid the town a flying visit this week. He purposed returning to Moose Jaw very soon and will probably open out in the confectionery and oyster line.

CONFIRMATION services were held by the Lord Bishop on Sunday morning. Seven presented themselves for confirmation. The Bishop preached at the evening service. His Lordship returned to Qu'Appelle on Monday morning.

TO-DAY the Soo train was delayed ten hours south of the boundary. To-day's train one was held here until 11.30 for connection but proceeded west without waiting further.

THOS. HEALEY has removed his confectionery business to Robinson's old stand. The rest of the building is being comfortably fitted up as a billiard hall and will doubtless be a favorite resort during the winter months.

R. C. MACDONALD returned on Wednesday night from Golden, B. C. to which point he took a heated car of fruit last week for Rubble, Riddell & Co. On his return Mr. MacDonald spent a day in Banff and tested the medicinal virtue of the hot springs.

NURSE one of yesterday was held twelve hours at this point waiting connection with the Soo train which was delayed by snow in North Dakota. The run over the Pasqua branch was made in exceptionally quick time. Engineer Ryland brought the delayed train in.

MASSES. C. D. Fisher and T. W. Scott made an interesting discovery in the Times office yesterday. While the former was making up the forms they noticed several peculiar insects crawling about in the type. Upon investigation they proved to be the wonderful *pediculæ typi* or type lice.

PASTOR MACK of the Moose Jaw Baptist Church left for Ontario last night accompanied by his family. His many friends deeply regret his departure. On Friday evening a surprise party on the occasion of his departure was given at the house of Mr. McBride. This evening passed pleasantly away with songs, games, etc.

J. H. HOLMAN, the popular commercial traveller, and till recently manager of Mrs. Doig's hotel at Regina, is in trouble over the Winnipeg election, in which he held the office of deputy returning officer. It is alleged that he opened one of the polling booths several minutes ahead of time, and allowed a number of personated votes to be recorded.

What The People Want!

In order to meet the demands and requirements of the people

As To Low Prices.

They must certainly first consider that if we were doing a credit business, we would of course have to run risks and naturally have to charge the goods with those risks, and therefore would be unable to sell so cheap. But we are not doing a credit business and therefore we don't have any risks—and can afford to sell cheap, and cheap will sell for cash.

Small profits and quick returns is our motto.

M. J. MacLeod.

STRAYED.

Strayed into my herd ten sheep with black faces and legs, nine crippled. Any person proving property and paying expenses may have the same.

DRINK and the Death Rate.

The British Medical Association appointed a committee to make inquiries, in order to ascertain the average age of the different categories of drinkers, that is to say, those who refrain completely from alcoholic drink, those who indulge more or less in moderate quantities, and those who are total drunkards. The committee has made a report. Its conclusions are drawn from 4234 deaths, which are divided into five categories of individuals, with the average age attained by each:

Total Abstainers	57 yrs. 22 days.
Occasional drinkers	59 " 67 "
Free drinkers	57 " 60 "
Habitually temperate drinkers	61 " 13 "
Decidedly intemperate drinkers	63 " 2 "

The above figures, under which a settler may reside, are for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

3. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

5. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

6. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

7. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

8. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

9. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

10. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

11. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

12. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

13. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

14. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

15. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

16. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

17. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

18. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

19. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

20. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

21. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

22. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

23. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

24. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

25. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

26. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

27. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

28. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

29. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.

30. The foregoing system under which a settler may reside, applies for the first two years of his entry by common consent, and afterwards a continual residence in a habitable house on the land for three months next prior to application for payment. Under this system 10 acres are taken the first year, 15 in the second, and 20 in the third year.
